| 0 | - dive of the listed has made have a sefer to continue 16 | |

• Additional information: For the wording of the listed hazard phrases refer to section 16.

4 First aid measures

• 4.1 Description of first aid measures

· General information: Personal protection for the First Aider.

- After inhalation:
- Supply fresh air.

Seek medical treatment in case of complaints.

• After skin contact:

Immediately wash with water and soap and rinse thoroughly.

- *If skin irritation continues, consult a doctor.*
- After eye contact:

Rinse opened eye for several minutes under running water.

Seek medical treatment.

• *After swallowing:* Do not induce vomiting; call for medical help immediately.

• 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

(Contd. on page 3)

Version number 3

Revision: 15.05.2023

Trade name: SWIN REAKTIONSVERDÜNNER NORMAL

(Contd. of page 2)

• **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

5 Firefighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- For safety reasons unsuitable extinguishing agents: Water with full jet
- 5.2 Special hazards arising from the substance or mixture No further relevant information available.
- 5.3 Advice for firefighters
- · Protective equipment: Mouth respiratory protective device.

6 Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Ensure adequate ventilation
- · 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to section 13.
- **6.4 Reference to other sections** See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment.

7 Handling and storage

• 7.1 Precautions for safe handling Ensure good ventilation/exhaustion at the workplace. Restrict the quantity stored at the work place.

Information about fire - and explosion protection: Fumes can combine with air to form an explosive mixture. Flammable gas-air mixtures may form in empty receptacles. Keep ignition sources away - Do not smoke. Use explosion-proof apparatus / fittings and spark-proof tools. Protect against electrostatic charges.

- 7.2 Conditions for safe storage, including any incompatibilities • Storage:
- *Requirements to be met by storerooms and receptacles:* Unsuitable material for receptacle: steel. Provide solvent resistant, sealed floor.
- Information about storage in one common storage facility: Do not store together with alkalis (caustic solutions).
- Further information about storage conditions: Keep container tightly sealed.
- 7.3 Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

· 8.1 Control parameters

• Additional information about design of technical facilities: No further data; see section 7.
